SCENT ELECTRIC REED DIFFUSERS

SCENT BRANDING

Reinforcing Brand Identity
Through the Power of Scent

The process of finding and creating a scent identity is very detailed and personalized as no two brands or businesses are the same. All aspects of the business are taken into consideration. Their history, customers, goals and the desired emotional response are all interpreted and translated into a scent that represents their brand and will help further their goals and aspirations.

HOW DOES SCENT BRANDING WORK?

The limbic system is the "emotional" part of our brain that is responsible for mood, emotions and memories.

Limbic system

Scent is the **STRONGEST** sense linked to memory & emotion.

SCENT MAKES AN EMOTIONAL IMPACT

40%

Studies show a 40% increase in mood when exposed to a pleasing fragrance.

75%

Of our emotions generated every day are due to what we smell, not by what we see.

100x

People are 100x more likely to remember what they smell vs. what they see.

TECHNOLOGY

SCENT ELECTRIC REED DIFFUSERS

- ✔ Nano-sized particles mist.
- ✔ The nano-sized particles can be spread ed into the air. And will not drip or adhere to the surface of the object.
- ✔ Nano-sized particles can be spread over a super-large area by diffusion through a central air conditioner.(HVAC)
